ADA

INSTALLATION:

- With special screwdriver provided remove screw located on shield above valve, remove head bracket with hex socket key, remove large locking nut, remove valve handle with hex socket key, remove dome and nameplate with locking ring. Remove unit cover.
- 2. Mount valve and piping assembly to wall with screws and anchors provided. Connect supply piping.
- 3. Replace unit cover and reassemble in reverse order.
- 4. Install shower head.

For ADA compliance (Americans with Disabilities Act) consult ADAAG or your state regulations for proper product choice and mounting heights. ADAAG does permit a fixed shower head mounted 48" above the floorin unmonitored facilities where vandalism may be a problem.
