*The First Choice for Plumbing and HVAC/R Pros*

## *Oxy-Acetylene Portable Tote Guide*

[www.turbotorch.com](http://www.turbotorch.com)

 THERMADYNE<sup>®</sup>

# **TurboTorch®** exceeds the industry needs

**for HVAC, Plumbing, Refrigeration, and General Maintenance usage, and provides you with the right products and value to do the job professionally.**

**The TurboTorch Portable Totes are designed for a variety of oxy-fuel welding, cutting and heating applications. These new totes all contain the quality components needed to perform jobs ranging from light duty welding, specialized brazing and cutting steel!**

**We offer twenty (20) different configurations with components specifically designed around “real world” applications and their equipment requirements. Here are key applications these totes cover:**

## KEY APPLICATIONS

HVAC

REFRIGERATION

MAINTENANCE  
AND REPAIR

PLUMBING

**TurboTorch is also excited to present our new offering, CutSkill by Victor, which replaces the TurboSkill product. The CutSkill totes are correct for the market and provide a solid mix of performance and value.**

### **Patented Tote Design Features**

- **Ergonomic Carry handle**
- **Secure, Built-in Storage Compartments**
- **Small Footprint, Lightweight**
- **Functional, Balanced Design**

**TurboTorch has received a patent for this new design. The balance, quality of construction and overall design makes this the Oxy-Fuel product to use.**

**With TurboTorch, **Safety is Number One.****

**The TurboTorch name is well known and respected for exceptional and outstanding product quality. Backed by Victor, the leader in Oxy-Fuel products, quality and safety are both benefits you receive with every TurboTorch product.**
