

## NuTone Ventilation Fan/Lights – Decorative

**A beautiful balance of elegance and performance.** Now you can ventilate while adding quiet elegance and exceptional design to your bathroom or any other room in your home. The NuTone series of decorative fan/lights delivers quality ventilation performance and complements your room with beautifully styled glass globe lighting. These fan/lights are available in five, corrosion-resistant decorator finishes: oil-rubbed bronze, antique crackle nutmeg, pewter, satin nickel, and white.

### Decorative Glass Light Fixture/Fans Features

757SNNT	80	2.5	2-60W Incandescent	Satin Nickel

\*NEW, quieter model – nearly half the sone level.

## NuTone Ventilation Fan/Lights – Decorative

**Recessed lights are popular lighting solutions.** But NuTone took it a step further by incorporating powerful ventilation in the same design. Our new fan lights disappear into the ceiling with other recessed lights, so they are practical decorating solutions for any room in the house. In the bath they control humidity, and in a utility room, kitchen or high-traffic family room they keep the air fresh and comfortable.

### Recessed Fan Light

- High efficiency centrifugal fan delivers 70 CFM at 1.5 sones
- Trim matched to designs of major recessed light manufacturers
- Multiple units can be used in larger rooms
- Model 744NT uses a 75 watt bulb, either R30 or BR30 for standard applications
- Model 744FLNT uses a 14 watt R30 shaped fluorescent bulb
- Model 744NT is UL Listed for use over bathtubs or showers when connected to a GFCI protected branch circuit with PAR30L or PAR30LN type bulbs
- 6-3/4" high housing appropriate for new construction and 2" x 8" ceiling joists
- 4" round duct connector
- Not for use over cooking surfaces
- Optional wall control switches available
- Type IC, sealed housing

### Model 744NT

Model	CFM	Sones	Lighting
744NT	70	1.5	75 Watt
744FLNT	70	1.5	14 Watt Fluor.

You'd never know it's a fan,  
and that's the point.
