PRODUCT DESCRIPTION

Triple Play Burner System®

Exclusive burn technology — The burner system produces full, yellow flames with a unique triple effect that delivers an authentic, randomly flickering glow.

Deluxe Control Panel

Consumer-friendly design — The full-featured control panel conveniently lifts off, so you can add a *blower* or other upgrades with ease.

Up to 26,000 BTUs

Warmth and comfort — This fireplace delivers a range of BTUs from 17,000 to 26,000, so you'll stay nice and warm while efficiently heating the room to help lower heating costs.

Up to 582 sq. in. of Viewing Area

Full viewing area — With up to 582 sq. in. of viewing area, friends and family can enjoy the lovely flame picture from almost anywhere in the room.
