

CRL Makita® General Purpose Specialty Saw Blade

- 4" (102 mm) Diameter
- 5/8" - 7/8" (16 - 22 mm) Arbor

CAT. NO. A94546

This CRL Makita® 4" (102 mm) General Purpose Specialty Saw Blade is a diamond rim blade with a 5/8" (16 mm) arbor diameter and a removable insert to accommodate 7/8" (22 mm) arbor saws. An excellent blade for cutting most masonry, except granite or ceramics. Can be used wet or dry. Minimum order is one each.

CRL Makita® 12 Tooth Combination Wood Saw Blade

- 4-3/8" (111 mm) Diameter
- 20 mm Arbor

CAT. NO. A90093

The CRL Makita® 4-3/8" (111 mm) Combination Wood Saw Blade is carbide tipped and is an excellent choice for smaller battery powered circular saws. This general purpose blade works with both hard and soft woods, as well as particle board. Minimum order is one each.

CRL 40 Tooth Combination Saw Blade

- 7-1/4" (184 mm) Diameter
- 1/2" - 5/8" (12.7 - 16 mm) Arbor

CAT. NO. F40714

This CRL Fire-Tooth Combination Saw Blade has 40 flame hardened steel teeth to stay sharp longer. This blade can be used for either cross-cutting or ripping. Minimum order is one each.

CRL 60 Tooth Combination Saw Blade

- 7-1/4" (184 mm) Diameter
- 1/2" - 5/8" (12.7 - 16 mm) Arbor

CAT. NO. F37714

This CRL Fire-Tooth Combination Saw Blade has 60 flame hardened steel teeth to stay sharp longer. This blade can be used for either cross-cutting or ripping. Minimum order is one each.

CRL Carbide Tipped Wood Saw Blade

- 7-1/4" (184 mm) Diameter
- 5/8" (16 mm) Arbor

CAT. NO. 721251A

This CRL 40 Tooth Carbide Tipped Saw Blade is an excellent choice for cutting all types of wood. Minimum order is one each.

CRL Tungsten Carbide Saw Blade

- 7" (178 mm) Diameter
- 1/2" - 5/8" (12.7 - 16 mm) Arbor

CAT. NO. GC703

The CRL 7" (178 mm) Tungsten Carbide Saw Blade is good for cutting fiberglass, tempered hardwood, composite boards, and laminates. Minimum order is one each.
