

## Viega Visign® Flush Plates for Eco Plus® Carriers

Viega Visign flush plates combine functionality and performance with elegant design. The many design awards that these plates have received prove that they can accentuate and complete the design of any space with multiple styles and finishes available. Through German engineering the performance and functionality of the plates is delivered with every flush actuation. There are also multiple types of actuation available to meet every need or desire. These include manual touch, touchless and remote flush actuation methods. The touchless plates improve hygiene while also eliminating finger prints. The water closet plates come with dual flush functionality to help with water conservation.
