

Back Probe Test Lead Kit w/ Fine Tip Needle Probe

The ATLBPK is a back probe test lead kit offering a fine tip needle probe with standard test lead extension wire. The fine tip gives technicians the ability to back probe connectors, easily reach connectors on control devices and test points located on circuit boards. The leads have a standard 4mm banana jack. Works with DL369, DL379COMBO, DL389, DL389COMBO, DM391, DM397, DMEG3, IRT3, UTL260, UTL33T.

Features

- Works with DL369, DL379COMBO, DL389, DL389COMBO, DM391, DM387, DMEG3, IRT3, UTL260, UTL33T
- CATIII
- 4mm inputs
- 1-Year limited warranty

Includes

Test lead extensions (ATLTX)
Back probe (ATL5)

Specifications

CAT Rating	600V
Probe	Fine Tip Needle
Works With	DL369, DL379COMBO, DL389, DL389COMBO, DM391, DM397, DMEG3, IRT3, UTL260, UTL33T.
Inputs	4mm
Feature	Extension Wire
mBar	± 200.0
