

Make-up Air Dampers

Broan® Automatic Make-Up Air Dampers are the first to provide synchronized operation for kitchen, bath and whole-house ventilation products. Installation is simple and requires no special wiring. Intelligent design options ensure optimum performance in a variety of installations and applications. Highly effective and affordable, Broan Automatic Make-Up Air Dampers strike the perfect balance to keep you and your home breathing easy.

- Economical, ruggedly constructed galvanized motorized damper.
- Can be controlled by more than one Broan ventilation product.
- Damper opens automatically to replace the air being exhausted by ventilation fans or range hoods, and then closes tightly when ventilation fans are turned off.
- Prevents excess air from entering the home during heating or cooling operation, reducing energy consumption.
- Interlocked systems meet IRC code requirements for make-up air with range hoods.
- Fresh air inlets are required—see the table below.

MD6TU/MD8TU/MD10TU Universal Design

- Works with any Broan range hood over 300 CFM.
- Provides interlocked make-up air.
- No direct wire connection required.
- Requires use of Broan fresh air inlets.

MD6T/MD8T/MD10T

- Works with Broan range hood models: EI59, EW56, EW58, E64, E60.
- Requires direct wire to hood.
- Requires use of Broan fresh air inlets.

FRESH AIR INLETS (REQUIRED)

Damper Model	Diameter	Fresh Air Inlet Model
MD6TU/MD6T	6"	641FA
MD8TU/MD8T	8"	643FA
MD10TU/MD10T	10"	610FA

Online Range Hood Make-Up Air Specifying Tool guides the design of the right make-up air damper system for any home. Try it at broan-nutone.com/make-up-air.
