

Magnetic Tool Storage Module, S-Hook

The Bucket Work Center is an ecosystem that will revamp the way a Lineman works. It allows Lineman to customize their workspace, just like other professionals customize their office space. Klein Tools' Magnetic Tool Storage Module has four Rare Earth magnetic plates to hold hand tools, sockets, bits and other small parts. This will be the Lineman's office. The S-Hook System easily attaches to aerial buckets with a standard 2-Inch or 3-Inch (5.1 or 7.6 cm) bucket lip. An assortment of modules are available to customize each workstation to fit the tools needed for the job.
