Roof Flashings and Storm Collars.....24-27

DuraVent BV round vent pipe is a Listed Type B gas vent pipe. Available Lengths from 6" to 60". Its adjustable fittings and standard short lengths eliminate all cutting, fitting and special engineering. An improved joint design provides for a rapid and secure connection in seconds. The use of our "DuraLock" feature gives installers the option of engaging this DuraTab instead of using sheet metal screws.

DuraVent BVO oval vent pipe, sizes 4", 5" and 6" provides the venting capacity of 4", 5" and 6" round vent pipe. 4" is Listed for both Type B, and Type BW, use/installation in a 2 x 4 wall. 5" is Listed for Type B use/installation in a 2 x 4 and 2 x 6 wall. 6" is Listed for Type B use/installation in a 2 x 6 wall.

Expandable Flexible Connectors DuraConnect I and DuraConnect II

Typical Installations.....6-7
Vent Pipe and Adapters..... 34-35

DuraVent DuraConnect I Expandable Flexible Gas Vent Connector is available in 3" and 4" diameters in 2'-3.5' and 2.5'-5' lengths.
DuraVent DuraConnect II Double Wall Flexible Gas Vent Connector is available in 3", 4", & 5" diameters in 2', 3', 4', & 5' lengths designed for easy connection to standard Type B Gas Vent. DuraConnect II is now Listed for use as a "segment" of an unenclosed Type B gas vent system and has full safety certification for use in conditioned and/or unconditioned attics and crawl spaces (USA only). DuraConnect II can simplify alignment of most installations by enabling a quick and easy offset between sections of rigid gas vent.

Submittal Specs.....36

GAS VENT TERMINATION

Caps in 3" through 12" sizes may be installed in accordance with the Gas Vent Termination Table if the vent is at least 8' from any vertical wall.

For installation of caps 14" and larger, or for caps that are less than 8' from a vertical wall, the cap is to be located no less than 2' above the highest point where the vent passes through the roof and at least 2' higher than any portion of a building within 10'.

Gas Vent Termination Table

Roof Pitch	Minimum Height
flat to 7/12	1.0 feet
over 7/12 to 8/12	1.5 feet
over 8/12 to 9/12	2.0 feet
over 9/12 to 10/12	2.5 feet
over 10/12 to 11/12	3.25 feet
over 11/12 to 12/12	4.0 feet
over 12/12 to 14/12	5.0 feet
over 14/12 to 16/12	6.0 feet
over 16/12 to 18/12	7.0 feet
over 18/12 to 20/12	7.5 feet
over 20/12 to 21/12	8.0 feet

GAS VENT OFFSET TABLE

Note: The vertical rise can also be closely estimated by adding one "A" and one "B" dimension to Maximum Offset figures. (See page 14 for "A" and "B" dimensions of Round Adjustable 45° Elbows.)

This table is used to determine the offset produced by two DuraVent 45° elbows set at the maximum angle of 45°. Also shown are the offsets produced by introducing various lengths between the two elbows.

Maximum Offset in Inches

Vent Size	With Two 45° Elbows Only	One 12" Length	One 18" Length	One 24" Length	One 3' Length

DuraLock® Type “B” Gas Vent System

Our non-positional lock system on the DuraVent® BV Gas Vent is the best lock system on the market today. The incorporation of the DuraTab® feature simply improves our lock system by adding flexibility and meeting market needs.

To use the DuraTab® feature: BV 3” through 8”

The DuraTab is located on the female end of the gas vent.

Assemble the gas vent sections.

Press the DuraTab with finger or thumb into channel to lock the two lengths together.

To disengage the DuraTab, pull out by using a flathead screwdriver.

DuraTab: You no longer have to use sheet metal screws to secure pipe connections if required by local code. Just press the “DuraTab” and you are done.

The BV line of DuraVent round vent pipe and fittings is designed for use on approved gas appliances in residential and light commercial and industrial applications.

NOTE: Size refers to the inside diameter of the pipe or fitting. The outside diameter of 3” to 8” BV is approximately 1/2” larger. Outer material is 28 GA galvanized steel. Inner liner is aluminum. In Canada some lengths are available with galvalume steel outer material.

Large Diameter Connection Method: BV 10” through 30”

Line up seams of both pipes (ensure UP ARROW on label is pointing up or away from the appliance).

Press down on the pipe all the way around until you hear a snap-in-place sound. The pipes are now firmly connected.

To disengage the DuraLock, pull out all lances (teeth). Rotate joint slightly while gently pulling apart.

Oval Connection Method: BVO 4" - 6"

LOCKING OF JOINTS

Place female coupler over preceding male coupler.

Press side of pipe down until joint seats.

Press other side of pipe down until joint is engaged.

UNLOCKING OF JOINTS

Insert screwdriver one inch into joint as shown.

Press firmly inward with blade of screwdriver and pry upwards **VERY SLOWLY AND GENTLY**. Joint will slowly separate without damage.

Rugged Construction

Strong, durable galvanized steel outer pipe has internal spacing beads to assure a uniform insulating air space between pipe walls. Each end is die formed to assure uniform sizing for strong, easy to connect joints. In Canada, some lengths are available in galvalume steel outer pipe.

The inner aluminum pipe is attached to the outer pipe at only one end. This arrangement allows for differential expansion between the two pipes, eliminating operational noises.

Assured Safety

The double wall (pipe within a pipe) construction with its built-in air space, provides permanent insulation and keeps the inner pipe hot and the outer pipe relatively cool. Such construction creates quick, strong vent action and reduces condensation in the pipe or overheating of nearby enclosure surfaces.

With special factory supplied parts, 4" BVO oval pipe can be installed at less than one inch clearance to combustible surfaces as a Type BW vent for recessed wall furnaces or as a Type B vent through 2 x 4 walls. Check with local authorities if Type BW vent is permissible in your area.

Fully Tested And Listed

DuraVent Gas Vent pipe and fittings have been tested and listed per UL 441 for installation as Type B and BW gas vents to be installed in single and multi-story buildings in accordance with the standards of The National Fire Protection Association NFPA54 and NFPA211. In Canada, DuraVent Gas Vent pipe and fittings have been tested and listed per CAN/ULC-S605 for installation as Type B and BW gas vents and to be installed in single and multi-story buildings in accordance with the Canadian Fuel Gas Installation Code CAN/CSA-B149.1.00.

They must be enclosed in occupied portions of a building. When the enclosure is made of combustible material, refer to the required minimum clearance in the DuraVent Model BV Installation Instructions.

Warning

The products in this catalog are only for use on listed natural gas or liquid propane Category I appliances. Do not use any gas vent on oil or woodburning appliances. These fuels can produce temperatures which may damage the gas vent with resulting hazard to both life and property. These gas vents are not suitable for use when sealed, pressure type, or leak-proof systems are called for. For residential "high efficiency" gas burning appliances, which may need sealed systems, Type B vents may be used only if allowed by the appliance manufacturer's installation instructions.

SPECIFICATIONS FOR VENTING APPROVED GAS BURNING APPLIANCES WITH TYPE B GAS VENT PIPE

The gas vent system shall be so engineered and constructed as to develop a positive flow adequate to exhaust all flue gases to outside atmosphere, without condensation within the vent or spillage at any appliance draft hood.

All flue-gas carrying parts of the vent system shall be DuraVent Type B double-wall gas vent piping, and such piping

shall be continuous from the appliances' outlets into the DuraVent vent termination.

DuraVent gas vent piping shall be installed in full compliance with the terms of its Underwriters' Laboratories, Inc. Listing, with the manufacturer's installation instructions, and with nationally recognized codes representing good practice for such installations.

Submittal Specification (USA ONLY)

SUBMITTAL SPECIFICATIONS FOR FACTORY-BUILT TYPE B GAS VENT (USA ONLY)

- TYPE: Factory-built double-wall gas vent
- APPLICATION: For venting negative pressure gas-burning appliances certified for use with Type B Gas Vent as described in NFPA 211, NFPA 54 and/or the International Fuel Gas Code.
- SIZES: 3" diameter through 8" diameter (nominal inside diameter)

Size (I.D.)	Component	Thickness	Component	Thickness
3"-8"	Inner Liner	.012"	Outer Wall	.018"
4"	Oval Inner Liner	.012"	Outer Wall	.018"
5"-6"	Oval Inner Liner	.016"	Outer Wall	.018"

- INSULATION: Airspace between inner and outer pipe.
- UNDERWRITERS LABORATORIES, INC. LISTED: Per UL Standard UL441(Latest Edition).
- FUEL TYPE: For use with Natural Gas, Propane or L.P. Gas Only

Inside Dimension	Outside Dimension	Clearance
3" through 8" (Round, 1" increments)	Inside Diameter + ½"	1"
4" Oval (2" x 6 ¾") *	Inside Dimension + ½"	1" **
5" Oval (2" x 10 ¼") *	Inside Dimension + ½"	1" **
6" Oval (2 13/16" x 11 1/8") *	Inside Dimension + ½"	1" **

*Given measurements are the major oval dimensions. 4" & 5" Oval vent can be installed within 2" x 4" stud walls; 5" & 6" Oval can be installed within 2" x 6" stud walls.

** Proper clearance in a stud wall is the distance created by centering the vent within the stud wall and will be less than one inch. The size referenced for oval vent corresponds to the diameter of a round vent of equivalent area.

Material

Inner Liner of Aluminum Alloy 1100, 3003, 3104, 3105 or 5010

Outer Wall of UL Recognized G90 Galvanized Steel

Model BV: 3" – 8" diameter round vent

Model BVO: 4" – 6" equivalent diameter oval vent

NOTES

[illegible]

DuraVent Limited Lifetime Warranty

DuraVent, Inc. ("DuraVent") provides this limited lifetime warranty for all of its products with the exception of Ventinox® (lifetime), and PolyPro® (ten years). Subject to the limitations set forth below, DuraVent warrants that its products will be free from defects in material or manufacturing, if properly installed, maintained and used. DuraVent products are fully warranted if installed only by a professional installer. This Warranty is transferrable from the original homeowner to the buyer of the home. This warranty does not cover normal wear and tear, smoke damage or damage caused by chimney fires, acts of God, or any product that was: (1) purchased other than from an authorized DuraVent dealer, retailer or distributor; (2) modified or altered; (3) improperly serviced, inspected or cleaned; or (4) subject to negligence or any use not in accordance with the installation instructions included with the product as determined by DuraVent. Installation instructions are available online at www.duravent.com under Support/Literature and through our Customer Service Department 800-835-4429 or customerservice@duravent.com. This limited lifetime warranty applies only to parts manufactured by DuraVent.

DuraVent provides the following warranties for its products: One Hundred Percent (100%) MSRP 15 years from the date of purchase, and Fifty Percent (50%) thereafter, except for the following limitations on: all Termination Caps and DuraBlack® are warranted at One Hundred Percent (100%) for five years.

All warranty obligations of DuraVent shall be limited to repair or replacement of the defective product pursuant to the terms and conditions applicable to each product line. These remedies shall constitute DuraVent's sole obligation and sole remedy under this warranty. This warranty provides no cash surrender value. The terms and conditions of this warranty may not be modified, altered or waived by any action, inaction or representation, whether oral or in writing, except upon the express, written authority of an executive officer of DuraVent.

Corn, bio-fuels, driftwood or other wood containing salt, preservative-treated lumber, plastic and household trash or garbage, or wood pellets containing such materials must not be burned in the appliance or fireplace. In case of a chimney fire, the chimney must be inspected and approved by a certified Chimney Sweep before reuse. After each annual inspection, maintenance, and cleaning, the certified Chimney Sweep must fill out and date the appropriate section of the warranty card provided with the chimney liner.

LIMITATIONS ON INTERNET SALES: Notwithstanding any other terms or conditions of this Limited Lifetime Warranty, DuraVent provides no warranty for the following specific products if such products are not installed by a qualified professional installer: DuraTech®, DuraTech® DTC, DuraPlus HTC®, DuraTech® Premium, DuraChimney® II, DuraPlus Canada 2, PelletVent Pro®, DirectVent Pro®,

FasNSeal®, FasNSeal® W2, FasNSeal® Flex, and PolyPro®, and DuraVent's relining products including DuraLiner®, DuraFlex® (SW, Pro, 316, 304), and Ventinox®. For purposes of this warranty, a trained professional installer is defined as one of the following: licensed contractors with prior chimney installation experience, CSIA Certified Chimney Sweeps, NFI Certified Specialists, or WETT Certified Professionals.

DuraVent must be notified and given the opportunity to inspect defective product prior to replacement under the terms of this limited lifetime warranty. All warranty claims must be submitted with proof of purchase. Labor and installation costs are not covered under this warranty. To obtain warranty service contact: DuraVent Warranty Service, 877 Cotting Ct., Vacaville CA 95688, or call 800-835-4429.

WHERE LAWFUL, DURAVENT DISCLAIMS ALL OTHER WARRANTIES, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL DURAVENT BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES OR DIRECT OR INDIRECT LOSS OF ANY KIND, INCLUDING BUT NOT LIMITED TO PROPERTY DAMAGE AND PERSONAL INJURY. DURAVENT'S ENTIRE LIABILITY IS LIMITED TO THE PURCHASE PRICE OF THIS PRODUCT. SOME STATES DO NOT ALLOW LIMITATIONS ON IMPLIED WARRANTIES, OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND EXCLUSIONS MAY NOT APPLY TO YOU. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.
